

## MOCK MASS CASUALTY INCIDENT VOLUNTEERS NEEDED

On Thursday May 23, 2019, Laurel Medical Center will be conducting a full-scale Mass Casualty Incident (MCI) exercise.

In order to add the necessary realism to the exercise, and to properly train and test the emergency responders in the hospital, volunteers are needed to play the roles of victims with survivable injuries from 9am-12pm. Moulage (injury make-up) will not be applied. Clothing will not be cut or torn at this exercise.

To sign up please go to <https://mdchhs.com/2019/03/05/region-v-fse-volunteer-sign-up/> and click on Laurel Medical Center. For additional questions please email [preeti.emrick@dimensionshealth.org](mailto:preeti.emrick@dimensionshealth.org).

There is a great deal of satisfaction derived from serving as a volunteer simulated victim in an MCI exercise. There is a sense of drama and excitement, as well as teamwork and education. Each volunteer can feel pride in contributing towards the goal of improving the Laurel community's capability to respond to a mass casualty event.
